Java Full-Stack Developer with 2+ years of professional experience in end-to-end web application development. Expertise in Spring Boot, React.js, RESTful services, and database management, with a commitment to delivering secure, scalable, and maintainable solutions.

## TECHNICAL SKILLS

Languages: Java, C, JavaScript(ES6), SQL, C#, Ruby

Technologies/Frameworks: React, Springboot, SpringJWT, SpringJPA, SpringAOP, Postman, RestfulAPI, Swagger, Rabbit Mq, Java EE, Load balancing, Redux, NodeJS, Express, Jest, HTML5, CSS3, Bootstrap, MaterialUI, Tailwind, Git.

Curriculum: ComputerNetworks, DBMS, CompilerDesign, OperatingSystem.

## EXPERIENCE

### AU Bank - Sr. Software Developer

June,2025 - Present

- Joined as a Senior Java Developer, contributing to the development, monitoring, and maintenance of various backend services.
- Actively involved in bug fixing, code optimization, and regular monitoring of assigned services to ensure system stability and performance.
- Played a key role in the DBT Aadhaar Seeding initiative, working on an API that sends OTPs for Aadhaar authentication.
- The service is integrated with NPCI, processes incoming requests via Kafka, and handles backend operations efficiently.
- Collaborated with the team to successfully raise a Change Request (CR) for the production deployment of the Aadhaar Seeding module.
- Currently engaged in a major MFIS integration project focused on migrating customer accounts from FIS to Flexcube, the bank's Core Banking System (CBS), ensuring a smooth transition with minimal disruption.

### BridgeLabz SolutionsPvt Ltd – Software Engineer

July,2023 - June,2025

- Spearheaded the development of the BL-Mapping and BL-ATU WebApp projects, handling both backend and frontend architecture — contributed to 100% of the development cycle from planning to deployment.
- Collaborated with the ETL Development Team on client-specific data transformation requirements, improving data pipeline efficiency by 30%.
- Conducted 5+ knowledge-sharing sessions, increasing the team's onboarding speed and project efficiency by 40%.
- Mentored 100+ engineers on Shell Scripting, Core & Advanced Java, JavaScript, Node.js, React, and DSA — improving overall code quality and peer review efficiency by 25%.

### ThoughtworksTechnologyIndia PvtLtd – SoftwareEngineer

July,2022–December,2022

- Developed the speech assistant frontend for Bahmni, an open-source EMR (Electronic Medical Record), improving accessibility for end-users by 35%.
- Actively contributed to Agile processes by attending daily stand-ups, managing tasks on JIRA, and ensuring timely sprint delivery — maintained 95% sprint velocity consistency.
- Created Kalavithi, a digital art gallery platform, as a full-stack developer — implemented end-to-end features including user registration, artwork upload, and gallery views, reducing manual curation effort by 50%.

## CERTIFICATIONS

- C Programming Certification(30 days) — CDIT, Infotech (BokaroSteel City).
- ASP .Net Core Training Certification (30 days) — SNTI (TATA, Jamshedpur).
- Java Full Stack Development Certification (120 days) — BridgeLabz Solutions Pvt Ltd (Mumbai).

## PROJECTS

---

### MFIS Integration – Core Banking Migration (FIS to Flexcube)

- Migrating customer accounts from FIS to Flexcube (CBS).
- Handling backend service updates, data validation, and system integration.
- Working with cross-functional teams to ensure data integrity and smooth transition.

### Aadhaar Seeding – DBT Integration with NPCI

- Migrating customer accounts from FIS to Flexcube (CBS).
- Handling backend service updates, data validation, and system integration.
- Working with cross-functional teams to ensure data integrity and smooth transition.

### BL-ATU

- Built system to track daily learner attendance and practice hours.
- Integrated Google Auth, geo-fencing, and bulk upload.
- Used AWS S3 & GCS for secure file management.

### Stay-Ease – Hotel Room Booking Backend

- Developed backend for hotel room booking platform using Spring Boot.
- Implemented full CRUD, booking lifecycle, and MySQL-based persistence.
- Handled API documentation using Postman & Swagger.

### Learning Navigator – Exam & Subject Management

- Created Spring Boot-based system for managing students, subjects, and exams.
- Implemented registration, enrollment, and exam features with clean architecture.
- Used MySQL + Spring Data JPA for ORM and query handling.

## EDUCATION

---

Durgapur Institute of Advanced Technology And Management, W.B  
B.Tech-ComputerScienceandEngineering-**CGPA-7.04**

Durgapur, West Bengal
